- anurag4me
- Surat, Gujarat

### CERTIFICATIONS

- React and Redux
- Python for Data Science
- New India Vibrant Hackathon
- Code Unnati AIML

### SKILLS

- Technical Skills
  - ReactJs
  - NodeJs
  - MongoDB
  - ExpressJs
  - Tailwind
  - Git & Github
- Soft Skills
  - Problem Solving
  - Critical Thinking
  - Time Management

### LANGUAGES

- Hindi
- English
- Gujarati

### PROFILE

Passionate and dedicated pre-final year Computer Engineering student with strong skills in JavaScript, Python, React, and Node.js. Enthusiastic about problem-solving, teamwork, and continuous learning. Actively participates in hackathons and seeks opportunities to contribute to innovative tech solutions.

### PROJECTS

#### Uber Clone

- Full Stack Application
  - Developed a real-time ride-handling app using the MERN stack.
  - Implemented live tracking, ride matching, and dynamic fare calculation.
  - Integrated JWT authentication and Google Maps API for navigation.

#### Website Builder

- AI Powered Real Time
  - Built AI-powered website builder using React, TypeScript, and NodeJs.
  - Integrated WebContainer API for in-browser execution and AI assistance.
  - Developed live preview with Monaco Editor and real-time updates.

#### Smart Parking System

- Full Stack Application
  - Developed a smart parking system using ReactJs and ExpressJs for real-time management.
  - Implemented slot detection with dynamic availability updates and user reservations.
  - Optimized efficiency by integrating a user-friendly interface for seamless parking.

### EDUCATION

**Bachelor of Engineering in Computer Science** 2022 - Pursuing  
C. K. Pithawala College of Engg Surat | CGPA: 7.96

**12th Science** 2020 - 2022  
Saraswati Vidhyamandir Sachin | Percentage: 74
